Component Budget Overview

The FY 2027 Budget includes \$10.5B, 21,828 positions, and 21,799 full-time equivalents (FTE) for U.S. Immigration and Customs Enforcement (ICE). This funding will allow ICE to effectively carry out ICE's operational mission. This funding, when combined with the funding provided by the *Working Families Tax Cut Act* (Pub. Law 119-21) will enable ICE to fully implement the President's immigration strategy to defend the homeland.

ICE is the principal criminal investigative agency within the Department of Homeland Security, responsible for enforcing more than 400 Federal statutes with a focus on immigration enforcement, preventing terrorism, and combating the illegal movement of people and goods. ICE has employees deployed across all 50 States, U.S. territories, the District of Columbia, and in 55 countries.

The FY 2027 Budget takes into consideration over \$74 billion in resources provided through the Working Families Tax Cut Act to promote the President's vision for America's immigration system. The Budget provides funding to carry out ICE's law enforcement mission of protecting America through criminal investigations, enforcing immigration laws to preserve national security and public safety.

The FY 2027 Budget reflects the Department's top priorities to strengthen national security through robust law enforcement across our entire mission, including securing our border and enforcing our immigration laws. The achievement of this goal hinges on the Department's dedicated law enforcement personnel, who are constantly asked to do more and whose retention is critical, especially as we seek to grow our staffing levels. The

Budget recognizes the important contributions of Law Enforcement Officers by annualizing their 2026 pay raise. Further, the Budget supports detention operations through funding for 41,500 detention beds.

Department of Homeland Security

U.S. Immigration and Customs Enforcement

Strategic Context

Fiscal Year 2027

Congressional Justification

U.S. Immigration and Customs Enforcement Strategic Context

Component Overview

The United States Immigration and Customs Enforcement (ICE) promotes homeland security and public safety through the criminal and civil enforcement of Federal laws governing border control, customs, trade, and immigration.

The strategic context presents the performance budget by tying together programs with performance measures that gauge the delivery of results to our stakeholders. DHS has integrated a mission and mission support programmatic view into a significant portion of the Level 1 Program, Project, or Activities (PPAs) in the budget. A mission program is a group of activities acting together to accomplish a specific high-level outcome external to DHS, and includes operational processes, skills, technology, human capital, and other resources. Mission support programs are those that are cross-cutting in nature and support multiple mission programs. Performance measures support the President's Management Agenda and are aligned to the Secretary's priorities related to securing the border, enforcing and administering the immigration system, and safeguarding national security. Performance measures associated with ICE's mission programs are presented in two measure sets, strategic and management measures. Strategic measures communicate results delivered for our agency mission and are considered our Government Performance and Results Act Modernization Act (GPRAMA) measures. Additional supporting measures, known as management measures, are displayed to enhance connections to resource requests. The measure tables indicate new measures and those being retired, along with historical data if available.

Enforcement and Removal Operations (ERO): Enforcement and Removal Operations (ERO) enforces the Nation's immigration laws by identifying and apprehending noncitizens, detaining those individuals pending final determination of removability, and removing them from the United States. ERO prioritizes the apprehension, arrest, and removal of those who pose a threat to national security, individuals apprehended at the border or ports of entry while attempting to unlawfully enter the United States, and individuals determined to pose a threat to public safety. ERO manages all logistical aspects of the removal process, including domestic transportation, detention, alternatives to detention programs, bond management, and supervised release. In addition, ERO repatriates those ordered removed from the United States to more than 170 countries around the world.

Strategic Measures

Measure Name:	Number of convicted criminal and pending criminally charged aliens returned and removed from the United States						
Description:	This measure counts the number of aliens with criminal convictions or pending criminal charges who are returned or removed from the United States by ICE Enforcement and Removal Operations (ERO). An alien's status as a convicted criminal or pending criminal is determined at the time of booking into custody, based on their criminal history record in the Enforcement Integrated Database. The total reflects ERO's effectiveness in identifying, locating, and extricating aliens with criminality who may pose threats to public safety. The measure is calculated by summing all returns and removals of aliens with criminal convictions or pending charges during the reporting period, and is used by agency leadership to assess operational performance and inform decisions about resource allocation.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	60,000	70,000	500,000	500,000
Results:	---	---	---	88,763	166,939	TBD	TBD

U.S. Immigration and Customs Enforcement

Strategic Context

Explanation of Result:	In FY 2025, ICE removed 166,939 aliens with criminal convictions or pending criminal charges from the United States, more than doubling the target of 70,000. This represents an 88% increase over FY 2024. The higher number of removals was driven by a greater focus on public safety threats, expanded flight operations, and improved coordination with foreign governments. Enhanced case tracking also helped ICE identify and remove more aliens who posed risks to communities. ICE will continue to build on these efforts and has increased its future annual target to 500,000 removals to reflect expanded operational capacity and ongoing commitment to public safety.
-------------------------------	---

Measure Name:	Number of convicted criminals and pending criminal arrests						
Description:	This measure counts the number of aliens with criminal convictions or pending criminal charges who are arrested by ICE ERO. An alien's status as a convicted criminal or pending criminal is determined at the time of booking into custody, based on their criminal history record in the Enforcement Integrated Database. The total reflects ERO's effectiveness in identifying, locating, and apprehending aliens with criminality who may pose threats to public safety. The measure is calculated by summing all arrests of aliens with criminal convictions or pending charges during the reporting period, and is used by agency leadership to assess operational performance and inform decisions about resource allocation.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	70,000	75,000	400,000	400,000
Results:	---	---	---	81,312	167,651	TBD	TBD
Explanation of Result:	In FY 2025, ICE made 167,651 arrests of aliens with criminal convictions or pending criminal charges, more than doubling the target of 75,000 and representing a 106% increase over FY 2024. This increase was achieved by strengthening partnerships with other agencies, improving data and technology for identifying cases, and focusing enforcement efforts on public safety threats. ICE has increased its future annual target to 400,000 arrests to reflect expanded operational capacity and ongoing commitment to enforcing immigration laws and protecting public safety.						

Measure Name:	Total number of aliens returned and removed from the United States						
Description:	This measure counts the total number of aliens who are returned or removed from the United States by ICE ERO. It includes all returns and removals carried out by ERO during the reporting period and reflects the program's effectiveness in enforcing immigration law by identifying, apprehending, processing, and removing aliens from the United States. The measure is calculated by summing all returns and removals of aliens within the specified timeframe and is used to evaluate ERO's overall performance in enforcing immigration law.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	120,000	175,000	1,000,000	1,000,000
Results:	---	---	---	271,484	442,637	TBD	TBD
Explanation of Result:	In FY 2025, ICE returned or removed 442,637 aliens from the United States, far exceeding the target of 175,000 and marking a 63% increase over FY 2024. This increase was achieved by expanding flight operations, improving coordination with foreign governments, and streamlining processes to ensure timely and efficient removals. ICE has increased its future annual target to 1,000,000 returns and removals to reflect expanded operational capacity and ongoing commitment to enforcing immigration laws.						

Management Measures

U.S. Immigration and Customs Enforcement

Strategic Context

Measure Name:	Average daily population of aliens maintained in detention facilities						
Description:	This measure reports the average daily count of aliens held in detention facilities. The measure reflects the total detention population for a given time period, divided by the total number of days during that time period.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	34,000	31,500	31,500	25,000	41,500	99,000	99,000
Results:	19,461	22,630	28,289	37,722	48,706	TBD	TBD
Explanation of Result:	The cumulative average daily population of illegal aliens maintained in detention facilities ended FY 2025 at 48,706, a 29% increase over FY 2024. This is attributable to increases in budget resources allotted to ERO to increase detention bedspace and meet ERO's overall mission to increase and expedite the apprehension and removal of illegal aliens. To meet this obligation, ERO has added new detention facilities and expanded existing facilities where possible. These detention space expansions are critical to meeting ERO's tasked goal of arresting and removing one million aliens per year, preventing bottlenecks in the removal lifecycle and providing detention facilities where they are needed to support EROs transportation and removal strategies. Further increases in allocations for ICE detention bedspace will drive average daily population figures higher, though this increase may be gradual as the acquisition and construction of new facilities, and expansion and retrofitting of existing facilities takes time.						

Measure Name:	Average length of stay in detention for Other Immigration Violators (in days)						
Description:	This measure assesses the effectiveness of efforts to reduce the Average Length of Stay (ALOS) for Other Immigration Violators (OIV) in ICE's detention facilities. ALOS refers to the duration of time, in days, that an alien remains in ICE custody. Decreases in the ALOS for OIVs can significantly reduce the overall costs associated with maintaining a detained population which does not pose a priority threat to national security or public safety.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	≤ 20.0	≤ 15.0	≤ 55.0	≤ 53.0	≤ 53.0
Results:	---	---	35.1	46.0	56.4	TBD	TBD
Explanation of Result:	The cumulative average length of stay in detention for OIVs ended FY25 at 56.4 days, missing the FY25 performance target. Average length of stay in detention for Other Immigration Violators increased throughout FY 2025, likely a result of bottlenecks caused by the increased pace of apprehensions exceeding the rate that removal capacity has been scaled-up to meet the increased demand. This has put a burden on current resources, increased case processing times, and resulted in longer stays in detention.						
Corrective Action:	The rapid increase in arrests and detentions beginning in January 2025 has inundated current resources, diverted the current manpower of our Law Enforcement Officers, and increased case processing times. Beginning in FY 2026, ICE's budget has been increased significantly and the department is in the process of hiring more personnel, and acquiring more detention, transportation, and removal resources, and developing innovative strategic and technological logistics solutions to decrease bottlenecks in the immigration lifecycle. These changes should, among other benefits, reduce the length of time other immigration violators spend in detention prior to relief or removal.						

Measure Name:	Percent of all Alternative to Detention participants who demonstrate compliance						
Description:	This measure gauges the compliance of participants enrolled in the Alternative-to-Detention (ATD) process. Participants are aliens who, upon release from custody, require supplemental case management support and technology assignment to be successful with release conditions, court hearing attendance, and compliance with final orders of removal while allowing them to remain in their communities. ATD uses contractors for effective case management to assist the participant in ensuring they understand their immigration obligations,						

U.S. Immigration and Customs Enforcement

Strategic Context

	can meet basic needs, and are provided continued support while they remain in their communities. Participants who were de-escalated and/or positively terminated after recurring case reviews are considered in compliance. Alternative to Detention ensures compliance as aliens move through their immigration court proceedings without detaining them inside detention centers.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	85.0%	85.0%	85.0%	85.0%	87.0%	87.0%
Results:	---	91.0%	85.0%	87.5%	87.6%	TBD	TBD
Explanation of Result:	There were a total of 66,756 participants discontinued from alternative to detention program in FY 2025. Of those participants, 36,031 demonstrated compliance through the date of discontinuation with the program. There were an additional 181,157 actively compliant participants in the program on 9/30/2025.						

Measure Name:	Percent of detention facilities that meet the National Detention Standards Program during their full annual inspection						
Description:	This measures ICE's effectiveness in ensuring all adult detention facilities, with an Average Daily Population (ADP) greater than 1, meet the ICE National Detention Standards Program. Family residential centers, ERO juvenile facilities, staging facilities, or holding rooms that may temporarily hold ICE detainees are not included in this metric. The program ensures facilities used to house aliens in immigration proceedings or awaiting removal do so in accordance with their contractually obligated ICE national detention standards and assesses results through conducting annual facility inspections, imposing penalties for noncompliance and provide guidance to facilities in reaching compliance. Life/safety deficiencies are immediately addressed upon receiving a preliminary report.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	95.0%	100.0%	100.0%	100.0%
Results:	---	---	---	100.0%	100.0%	TBD	TBD
Explanation of Result:	Out of the 77 facilities inspected under this measure, 77 (100%) of the facilities met the National Detention Standards.						

Homeland Security Investigations (HSI): The Homeland Security Investigations (HSI) program conducts criminal investigations to protect the United States against terrorism and criminal organizations that threaten public safety and national security. HSI combats transnational criminal enterprises that seek to exploit America's legitimate trade, travel, and financial systems. This program upholds and enforces America's customs and immigration laws at and beyond our Nation's borders.

Strategic Measures

Measure Name:	Number of disruptions or dismantlements resulting from significant Homeland Security Investigation cases
Description:	This measure counts the total number of disruptions or dismantlements resulting from significant Homeland Security Investigations (HSI) cases targeting high-threat Transnational Criminal Organizations (TCO) engaged in criminal activity related to illicit trade, travel, or finance (including both drug-related and non-drug-related offenses), as well as counterterrorism, national security, worksite enforcement, gangs, or child exploitation. A disruption means HSI has impeded the normal and effective operation of the targeted organization, while a dismantlement means HSI has destroyed the organization's leadership, financial base, and network so it cannot continue operating or reconstituting itself. The measure is calculated by adding up all disruptions and dismantlements achieved through significant HSI cases during the reporting period and is used to assess HSI's impact on major criminal organizations.

U.S. Immigration and Customs Enforcement

Strategic Context

Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	---	131	400	325
Results:	---	---	---	---	350	TBD	TBD
Explanation of Result:	In FY 2025, HSI disrupted or dismantled 350 major criminal organizations, far surpassing the target of 131. This strong performance was achieved through a renewed focus on enforcing immigration laws and targeting transnational crime. HSI increased coordination with other DHS Components and law enforcement partners, and used specialized expertise and data analysis to identify and act against the most serious threats to national security. In recognition of these results, future annual targets have been raised to reflect the agency's continued efforts to protect the homeland.						

Measure Name:	Number of disruptions or dismantlements resulting from significant drug-related illicit trade, travel, and finance investigations						
Description:	This measure counts the number of disruptions or dismantlements resulting from significant drug-related illicit trade, travel, and finance investigations led or co-sponsored by HSI. These investigations include international drug smuggling or trafficking cases of significant scope or those resulting in overdose deaths in the U.S.; cases involving international chemical or illicit drug manufacturing equipment; Organized Crime Drug Enforcement Task Force cases; cases accepted for federal prosecution under the <i>Racketeer Influenced and Corrupt Organizations Act of 1970</i> (P.L. 91-452) or similar statutes; and cases involving transnational drug-trafficking organizations or individuals laundering over \$5 million annually. A disruption means HSI has impeded the normal and effective operation of the targeted organization, while a dismantlement means HSI has destroyed the organization's leadership, financial base, and network so it cannot continue operating or reconstituting itself. The measure is calculated by adding up all disruptions and dismantlements achieved through these significant investigations during the reporting period and is used to assess HSI's impact on major drug-related criminal organizations.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	---	44	250	250
Results:	---	---	---	---	148	TBD	TBD
Explanation of Result:	In FY 2025, HSI disrupted or dismantled 148 major criminal organizations involved in drug-related illicit trade, travel, and finance—more than triple the target of 44. This strong performance was driven by HSI's focused efforts to target the most serious threats, increased coordination with national and international partners, and real-time support to field offices. HSI also used specialized expertise and data analysis to identify and act against top criminal networks. Based on these results, future targets have been raised to reflect the agency's ongoing efforts to combat drug-related crime.						

Measure Name:	Percent of investigation incident reports containing high impact fentanyl seizures						
Description:	This measure shows the percentage of HSI incident reports that involve high impact fentanyl seizures, which helps assess the effectiveness of HSI's counter-narcotic investigations focused on fentanyl. An incident is classified as high impact if it involves a fentanyl seizure of one gram (0.00220462 pounds) or more, a threshold that aligns with guidance from federal agencies such as the Drug Enforcement Administration, Centers for Disease Control, and Office of National Drug Control Policy. One gram of fentanyl is considered a high impact amount because it is potentially lethal to about 500 people. The measure is calculated by dividing the number of incident reports with high impact fentanyl seizures by the total number of applicable investigation incident reports, and is used to evaluate HSI's efforts to remove dangerous amounts of fentanyl from public circulation and disrupt Transnational Criminal Organizations involved in drug trafficking.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027

U.S. Immigration and Customs Enforcement

Strategic Context

Targets:	---	---	---	---	63%	90%	90%
Results:	---	---	---	---	90%	TBD	TBD
Explanation of Result:	In FY 2025, 90% of HSI's incident reports included high-impact fentanyl seizures, exceeding the target of 63%. This success is due to HSI's expanded efforts to combat illicit opioid trafficking, including the creation of specialized teams focused on stopping fentanyl smuggling and distribution. These targeted operations have helped reduce the flow of fentanyl into communities and support efforts to lower opioid overdose rates nationwide. Based on these results, future targets have been increased to reflect HSI's ongoing efforts to address the fentanyl crisis.						

Management Measures

Measure Name:	Number of disruptions or dismantlements resulting from significant transnational gang investigations						
Description:	This measure reports on the number of disruptions and dismantlements resulting from significant transnational gang investigations. To be considered significant, the investigation must involve gang activity as defined by the Racketeering Influenced Corrupt Organization (RICO) or similar statute (e.g., the Violent Crime in Aid of Racketeering). "Disruption" is defined as impeding the normal and effective operation of the targeted organization. "Dismantlement" is defined as destroying the organization's leadership, financial base and network to the degree that the organization is incapable of operating and/or reconstituting itself. The measure aligns to the FY 2021 - 2025 ICE Strategic Plan; Goal 4.1.3: Investigate, Disrupt, and Dismantle Transnational Criminal Organizations, by disrupting and dismantling criminal organizations and their supply chains, reducing their ability to profit from these illicit schemes, and putting these illegal enterprises out of business.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	---	4	20	20
Results:	---	---	---	---	23	TBD	TBD
Explanation of Result:	HSI achieved these results by focusing its efforts to investigate violent crimes in pursuit of federal RICO, VICAR, and Hobbs Act prosecutions in order to most effectively disrupt and dismantle criminal gang enterprises.						

Measure Name:	Number of human trafficking, labor exploitation, and child exploitation victims assisted						
Description:	This measure reports the number of adult or minor victims assisted as a result of human trafficking, labor exploitation, and child exploitation investigations. Human trafficking includes sex trafficking and labor trafficking. Human trafficking, labor exploitation, and child exploitation victims are considered assisted and entered into the Victim Assistance Database (VAD) when a Victim Assistance Program Specialist (VAPS) or Victim Assistance Coordinator (VAC) makes contact and provides information or resources to the victim. Many victims receive additional services such as crisis management and supportive services throughout the investigation.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	1,204	1,216	2,000	2,000
Results:	---	---	---	2,540	2,268	TBD	TBD
Explanation of Result:	Forensic interviewing is a tool utilized to interview children in child exploitation investigations and some victims identified in human trafficking investigations, and as a result, victims are able to tell their stories in their own words and eliminates the chances of leading victims during an interview, which ultimately helps move a case forward to prosecution						

U.S. Immigration and Customs Enforcement

Strategic Context

Measure Name:	Number of Human Trafficking, Labor Exploitation, Child Exploitation, or Victim Assistance Program outreach or training sessions						
Description:	This measure reports the number of training and outreach programs provided by the HSI to advance the nationwide public awareness effort, and any other awareness efforts as needed, to encourage victim identification and reporting to law enforcement and preventing crimes of human trafficking, labor exploitation, and child exploitation. Trainings and events are provided to critical partners such as local, state, national, and international law enforcement, prosecutors, judges, forensic interviewers, nongovernmental organizations, social service programs, victim advocates, and survivors.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	440	440	2,000	2,000
Results:	---	---	---	2,362	3,556	TBD	TBD
Explanation of Result:	HSI raises awareness of crimes of exploitation through national education and outreach campaigns, such as Project iGuardian, Blue Campaign, the IMAGE program, and HSI's Victim Assistance Program. Project iGuardian raises awareness about the rapidly escalating crisis of online child sexual exploitation and abuse and shares preventative strategies to stop future victimization.						

Office of Principal Legal Advisor (OPLA): The Office of the Principal Legal Advisor (OPLA) provides a full-range of legal services to ICE, including advice and counsel to ICE personnel on their law enforcement authorities and potential liabilities. The program represents ICE before multiple administrative venues and supports the Department of Justice in the prosecution of ICE cases and in the defense of civil cases against ICE. OPLA attorneys serve as the exclusive DHS representatives in removal proceedings before U.S. Department of Justice, Executive Office for Immigration Review.

Management Measures

Measure Name:	Client satisfaction based on the annual OPLA Voice of the Client Survey						
Description:	This measure assesses the effectiveness of OPLA at providing high quality and timely legal advice and training to our clients. Client feedback provided through responses to the annual Voice of the Client Survey will provide insight into the effectiveness and efficiency of those efforts and provide actionable data on which OPLA will be able to identify gaps and adapt to better serve our clients' needs.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	71.0%	72.0%	73.0%	80.0%	80.0%
Results:	---	---	83.0%	87.0%	83.0%	TBD	TBD
Explanation of Result:	The OPLA Voice of the Client Survey is an annual survey for which results were obtained in FY 2025.						

Measure Name:	Ratio of Office of the Principal Legal Advisor full time positions per Executive Office for Immigration Review Immigration Judge Team
Description:	This measure assesses the effectiveness of OPLA's progress towards achieving the necessary staffing levels in accordance with OPLA's Workload Staffing Model (WSM). OPLA utilizes the Principal Legal Advisor's Network (PLAnet) as its docket and case management system and has worked collaboratively with ICE PAE and contractors to develop, build out, and refine a WSM utilizing PLAnet data. Under the current model, OPLA needs 3.92 FTE resources for each Department of Justice Executive Office for Immigration Review (EOIR) immigration judge (IJ) team. As a result of EOIR's rapid growth since FY2018, OPLA is at a staffing deficit and requires

U.S. Immigration and Customs Enforcement

Strategic Context

	additional personnel to cover the caseload associated with each IJ team. External factors and changes in policies and regulations may lower the results independent of program actions.						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	3.92	3.92	3.92	3.92	3.92
Results:	---	---	---	2.30	3.07	TBD	TBD
Explanation of Result:	Throughout most of FY 2025, OPLA continued to face shortfalls of attorney and support staff to handle the significant number of cases pending before the EOIR and the federal courts. The Department of Justice's (DOJ) EOIR experienced significant increases in the number of immigration judges (IJs) and immigration court locations, outpacing OPLA's available resources. This measure assesses the effectiveness of OPLA's progress towards achieving the necessary staffing levels in accordance with OPLA's Workload Staffing Model. With the enactment of the one Big Beautiful Bill Act, OPLA received additional funding to hire additional attorneys, which OPLA has been doing.						
Corrective Action:	With the enactment of the one Big Beautiful Bill Act, OPLA received additional funding to hire additional attorneys, which OPLA will continue to do.						

Office of Professional Responsibility (OPR): The U.S. Immigration and Customs Enforcement (ICE) Office of Professional Responsibility (OPR) is responsible for upholding ICE's professional standards through a multi-disciplinary approach of security, inspections, and investigations. OPR promotes organizational integrity by vigilantly managing ICE's security programs, conducting independent reviews of ICE programs and operations, and by impartially investigating allegations of serious employee and contractor misconduct and internal and external threats against ICE personnel and facilities.

Management Measures

Measure Name:	Percent of Personal Security Transfer of Trust cases completed within 7 days						
Description:	This measure quantifies the ability for ICE to review and assess employment suitability/fitness criteria of an individual applicant for employment and make transfer of trust determinations that relies of previous favorable federal background investigations that are at the requisite level for the position selected. The measure is taken from the time the ICE Office of Human Capital, Human Resources Operations Center or a Contracting Officer's Representative sends the selection notification of an individual applicant for employment to the Personnel Security Division to the time a transfer of trust decision is rendered when cases have no new actionable issues identified (e.g. new derogatory information that occurred after the closure of the previous background investigation).						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	70.0%	71.0%	95.0%	95.0%
Results:	---	---	---	99.0%	89.1%	TBD	TBD
Explanation of Result:	ICE tracked the expediency and fiscal responsibility of its Personnel Security Division in properly applying transfer of trust determinations on applicants and contractors who have the requisite level background investigation from within ICE or any other federal agencies. In FY 2025, the Personnel Security Division reciprocally processed 89.06% (3,582/4,022) of transfer of trust cases within 7 calendar days, which far exceeded the target goal and saved the agency over \$14.6 million in background investigation costs.						

Measure Name:	Percent of Personnel Security Rapid Vetting cases completed within 14 business days
----------------------	---

U.S. Immigration and Customs Enforcement
Strategic Context

Description:	This measure quantifies the ability for ICE to review and assess employment suitability/fitness criteria of an individual applicant for employment and make preliminary risk-based determinations that allow applicants to enter on duty prior to the completion of their full background investigation. The measure is taken from the time applicants complete their security documents to the time a preliminary Entry On Duty (EOD) decision is rendered when cases have no actionable issues identified (e.g. derogatory information).						
Fiscal Year:	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	FY 2026	FY 2027
Targets:	---	---	---	70.0%	71.0%	95.0%	95.0%
Results:	---	---	---	98.0%	97.2%	TBD	TBD
Explanation of Result:	ICE tracked the expediency of its Personnel Security Division (PSD) in clearing new applicants for preliminary suitability determinations when no actionable derogatory information is present. In FY 2025, the Personnel Security Division cleared 97.24%(15,708/16,154) of non-actionable issue cases within 14 calendar days, which exceeded the goal target. PSD continues to have a large inventory of pending cases but prioritized non-actionable issue cases to ensure the goal was met.

The U.S. Immigration and Customs Enforcement's (ICE) Operations and Support (O&S) appropriation provides funding to prevent terrorism, enforce the United States' immigration laws, and safeguard Americans through the enforcement of Federal laws governing trade and travel. ICE uses the resources appropriated in O&S to deter illegal immigration and protect the Nation from physical and cyber threats in all 50 States, the District of Columbia, the U.S. Territories, and 53 countries around the world. ICE fulfills these mission responsibilities by conducting investigations, dismantling transnational criminal organizations (TCOs), and enforcing immigration laws through actions against removable aliens.

The O&S appropriation funds law enforcement operations and mission support activities across the following four programs, projects, and activities (PPAs):

Mission Support: This PPA provides funding for ICE's Enterprise Services (ES), Executive Leadership and Oversight (ELO), and Office of Professional Responsibility (OPR). ES supports the full range of Management and Administration (M&A) enterprise-level services and operational support for ICE through eight program offices. ELO oversees the seven program offices that support ICE's planning and execution of goals and objectives outlined in the ICE strategic plan, strategic policy, and regulatory development to inform and empower ICE decision-makers. OPR mitigates agency risk and promotes organizational health and integrity by upholding ICE's professional standards through a multidisciplinary approach of security, inspections, and investigations to promote organizational health, integrity, and accountability across the agency.

Office of the Principal Legal Advisor (OPLA): This PPA provides funding for ICE OPLA attorneys who exclusively represent the U.S. Government in exclusion, deportation, bond, and removal proceedings before the Department of Justice's (DOJ) Executive Office for Immigration Review (EOIR). This PPA also supports OPLA attorneys who provide legal advice to ICE programs and offices on a range of immigration, customs, criminal laws and policies, labor and employment law, commercial and administrative law, ethics standards, and defend the operational authorities and decisions of ICE officers and agents in Federal courts. Support personnel provide administrative and legal assistance, including paperwork-intensive removal proceedings before EOIR. OPLA is organized into four programmatic portfolios: Enforcement and Litigation, Field Legal Operations, General and Administrative Law, and Chief of Staff.

Homeland Security Investigations (HSI): HSI is the principal investigative arm of the U.S. Department of Homeland Security (DHS) and the second largest investigative agency in the Federal Government. This PPA provides funding for Special Agents who conduct transnational criminal investigations to protect the United States against terrorist and other criminal organizations through criminal and civil enforcement of Federal laws governing border control, customs, trade, and immigration. HSI applies its legal authorities to investigate immigration and customs violations, including those related to human trafficking, human smuggling, child exploitation, transnational gangs, human rights abuses, countering fentanyl, narcotics, firearms and contraband smuggling, financial crimes, cybercrime, intellectual property infringements, international trade fraud and revenue crimes, export control, worksite enforcement and immigration benefit fraud. Additionally, specially trained investigative support staff assist in a broad range of functions for mission-critical areas.

Enforcement and Removal (ERO): This PPA provides funding for Deportation Officers (DOs) who enforce the Nation's immigration laws by identifying and arresting illegal removable aliens, detaining, or placing apprehended aliens in Alternatives to Detention (ATD) monitoring programs and removing illegal aliens from the United States. This PPA also manages a nationwide network of detention facilities that are a combination of ICE-owned and contracted facilities through marketplace vendors and State and local partnership. To ensure National security and public safety of the United States and the faithful execution of the Nation's immigration laws, officers take enforcement action against illegal removable aliens encountered during their duties, focusing resources on those charged and/or convicted of crimes, on cases of fraud or abuse of public programs, and immigration fugitives. Support personnel provide mission-critical analysis and administrative services, assisting DOs on detention and case management.

Operations and Support

Summary of Budget Changes

(Dollars in Thousands)

	Positions	FTE	Pay Amount	Non-Pay Amount	Amount
FY 2025 Full-Year CR	21,384	21,381	\$4,565,353	\$5,421,189	\$9,986,542
FY 2026 Annualized CR	21,384	21,381	\$4,565,353	\$5,421,189	\$9,986,542
FY 2027 Base Budget	21,384	21,381	\$4,565,353	\$5,421,189	\$9,986,542

Total Pricing Changes	-	-	\$189,546	\$364,184	\$553,730

Pricing Change 1 – 2025 Civilian Pay Raise Annualization: This pricing change represents the cost of the fourth quarter of the calendar year 2025 2.0 percent civilian pay increase.

Pricing Change 2 – 2024 Civilian Pay Raise Annualization: This pricing change represents the amount needed to fully fund the calendar year 2024 5.2 percent civilian pay increase.

Pricing Change 3 – 2026 Civilian Pay Raise and Annualization: This pricing change represents the cost of four quarters of the calendar year 2026 1.0 percent civilian pay increase.

Pricing Change 4 – Federal Employee Retirement System (FERS) Adjustment: This pricing change reflects a decrease in the FY 2027 Employing Agency contribution to FERS.

Pricing Change 5 – 2026 Law Enforcement Officer Pay Raise: This pricing change represents the cost of four quarters of the calendar year 2026 2.8 percent LEO pay increase.

Pricing Change 6 – FY 2026 Capital Security Cost Sharing: This pricing change reflects an increase of \$186K for ICE from the DHS-wide revised CSCS bills. ICE Capital Security Cost supports positions at 78 international embassies and consulates.

Pricing Change 7 – FY 2026 Detention Contract Increase: The detention contract costs are projected to increase from \$1.9B to \$2.1B in FY 2026.

Pricing Change 8 – FY 2026 Enterprise Wide Costs: EWC expenses are expected to increase in FY 2026 due to escalating operational costs and inflation.

Pricing Change 9 – FY 2026 Federal Protective Services (FPS) Fee Adjustment: This pricing change reflects a decrease in the cost of Federal Protective Service fees. The FY 2026 FPS assessment is based on a 5-year rolling average model.

Pricing Change 10 – FY 2026 General Services Administration (GSA) Rent: This pricing change reflects an increase in the cost of facilities leased from GSA. This increase aligns to the projected rent cost for FY 2026.

Pricing Change 11 – FY 2026 International Cooperative Administrative Support Services (ICASS): ICASS is the cost-sharing service provided by U.S. Embassies overseas. Multiple factors affect ICASS fee assessment levels, including an increase in the ICE international footprint, a decrease in the footprint of another ICASS cost-sharing agency, or increased operational expenses of Embassies.

Pricing Change 12 – FY 2026 Transportation Operations Sustainment: This pricing change reflects an increase of \$165.7M for the coordination, transportation and removal operations of illegal aliens for national security and public safety.

Pricing Change 13 – FY 2027 Capital Security Cost Sharing: This pricing change reflects an increase of \$2.0M for ICE from the DHS-wide revised CSCS bills for Federal departments and agencies. ICE Capital Security Cost supports positions at 81 international embassies and consulates.

Pricing Change 14 – FY 2027 Enterprise Wide Costs: Enterprise Wide Costs (EWC) expenses are expected to increase in FY 2027 due to escalating operational, maintenance, and repair costs.

Pricing Change 15 – FY 2027 Federal Protective Services (FPS) Fee Adjustment: This pricing change reflects increases in the cost of Federal Protective Service fees. The FY 2027 FPS assessment is based on a 5-year rolling average model.

Pricing Change 16 – FY 2027 General Services Administration (GSA) Rent: This pricing change reflects an increase in the cost of facilities leased from GSA. This increase aligns with the projected rent cost for FY 2027.

Pricing Change 17 – FY 2027 International Cooperative Administrative Support Services (ICASS): ICASS is the cost-sharing service provided by U.S. Embassies overseas. Multiple factors affect ICASS fee assessment levels, including an increase in the ICE international footprint, a decrease in the footprint of another ICASS cost-sharing agency, and increased operational expenses of Embassies.

Operations and Support Justification of Transfers

(Dollars in Thousands)

	FY 2027 President's Budget				
	Positions	FTE	Pay Amount	Non-Pay Amount	Amount
Transfer 1 - Transfer for APCP from ICE/O&S/MS to MGMT/O&S/OCPO	-	-	(\$959)	-	(\$959)
Mission Support	-	-	(\$959)	-	(\$959)
Enterprise Services	-	-	(\$959)	-	(\$959)
Transfer 2 - Transfer for Financial Professionals Program from ICE/O&S/MS to MGMT/OCFO	-	-	-	(\$29)	(\$29)
Mission Support	-	-	-	(\$29)	(\$29)
Enterprise Services	-	-	-	(\$29)	(\$29)
Transfer 3 - Transfer for FOIA from OSEM/O&S/Privacy to ICE/MS/Enterprise Services	1	1	\$285	-	\$285
Mission Support	1	1	\$285	-	\$285
Enterprise Services	1	1	\$285	-	\$285
Transfer 4 - FY 2027 Realignment from ERO to OFTP- Advance Training Program	-	-	-	-	-
Mission Support	42	42	\$8,383	\$3,521	\$11,904
Executive Leadership and Oversight	42	42	\$8,383	\$3,521	\$11,904
Enforcement and Removal Operations	(42)	(42)	(\$8,383)	(\$3,521)	(\$11,904)
Custody Operations	(42)	(42)	(\$8,383)	(\$3,521)	(\$11,904)
Total Transfer Changes	1	1	(\$674)	(\$29)	(\$703)

Transfer 1 – Transfer for APCP: Transfers the costs associated with the Acquisition Professional Career Program (APCP), which is a three-year professional development program that hires talented staff for a statutorily mandated program. DHS initiated a cost-sharing distribution program to ensure APCP is fully funded in FY 2025 and across Future Years.

Transfer 2 – Transfer for Financial Professionals Program: Transfers the costs associated with the FY 2026 Financial Professionals Program from O&S/Mission Support to MGMT/OCFO.

Transfer 3 – Transfer for FOIA Position: Transfers funding and positions to strengthen ICE’s privacy compliance and oversight capacity in support of expanding operational authorities, and data-sharing initiatives.

Transfer 4 – Realignment for Advance Training Program: Realignment funding for advance training programs from Enforcement and Removal Operations (ERO) to the Office of Firearms and Tactical Programs (OFTP). The consolidation of ERO advance training programs under OFTP will enhance the organization’s ability to train and equip all officers, align policies and best practices, as well as ensure integration and support between program offices.

Total Program Changes	46	70	(\$115,417)	\$102,910	(\$12,507)

Program Change 1 – FY 2025 Annualization & Non-Recur Adjustment:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	-
Program Change	-	(209)	(\$257)

Description

The annualizations represent recurring costs to the FY 2024 program changes and the terminations represent one time or non-recurring costs to the FY 2024 program changes.

Justification

This program change reverses the FY 2024 annualizations and non-recurring costs recorded in the FY 2025 Full-Year Continuing Resolution.

Program Change 2 – FY 2025 Annualized Continuing Resolution Adjustment:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	-
Program Change	-	-	\$136,329

Description

This program change reverses the FY 2025 Full-Year Continuing Resolution program changes.

Justification

This change reverses the FY 2025 Full-Year Continuing Resolution program changes to include the FY 2025 Pay Adjustment and FY 2025 Balance Modification. The FY 2025 Balance Modification ensured higher priorities were funded when the FY 2025 Full-Year Continuing Resolution was recorded.

Program Change 3 – FY 2025 Annualized Continuing Resolution Pricing Change Adjustment:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$16,258
Program Change	-	-	(\$16,258)

Description

This program change reverses pricing changes recorded for the FY 2025 Full-Year Continuing Resolution.

Justification

This change reverses recorded pricing changes for the IT Data Modernization Roadmap, Contracts, Adjustments to Base, and Travel.

Program Change 4 – FY 2026 Annualizations and Non-Recurs:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$13,798
Program Change	-	-	\$13,798

Description

The annualizations represent recurring and non-recur costs of FY 2024 program changes as recorded in the FY 2026 Congressional Justification.

Justification

The annualizations represent recurring and non-recur costs of FY 2024 program changes as recorded in the FY 2026 Congressional Justification.

Program Change 5 – FY 2026 Artificial Intelligence: Mobile Language Translation Services:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$4,639
Program Change	-	-	\$1,413

Description

Mobile Language Translation provides real-time speech to speech, text to speech, and document translation for critical and non-critical communications between ICE personnel and aliens in both online and offline (areas without cell service or internet) situations, which will help break the language barrier more quickly and in situations previously not achievable.

Justification

This program change will fund the implementation of a mobile language translation application for ICE personnel to use on their ICE-issued cellular devices during interactions with aliens, enhancing daily enforcement of immigration law. The application will provide on-demand translation services, improving efficiency and pace of case processing compared to the current limited dial-in telephonic service, and will be available to other ICE directorates and Federal stakeholders involved in immigration enforcement. This initiative addresses the need for translation assistance across various international languages, particularly those frequently encountered by ERO officers, enhancing ICE's responsiveness and efficiency in case management, investigations, and legal actions.

Program Change 6 – FY 2026 Automated Screening and Vetting:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	94	94	\$40,393
Program Change	44	44	\$28,422

Description

Automated Screening and Vetting (AS&V) operational activities include the initial, recurrent, and continuous screening of non-U.S. persons for immigration, travel, and transportation security purposes. AS&V operations increase the effectiveness of the ICE vetting process and produce results in additional potential matches which must be adjudicated by a human operator.

Justification

This program change will provide additional workforce to support DHS's screening and vetting activities to improve the speed and accuracy of adjudication decisions. It will modernize the Data Analysis System with the capability to meet DHS's current demand. The change will also advance initial and recurrent classified vetting of undocumented aliens.

Program Change 7 – FY 2026 Consolidated ICE Financial Solution (CIFS & FFMS Cloud):

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	17	17	\$3,736
Program Change	2	2	\$6,248

Description

This program enhancement ensures the continuity of operations for the current Federal Financial Management System (FFMS) while simultaneously preparing for the modernization of financial systems to meet regulatory compliance. Key aspects that this funding will support include Continuity of Operations, Modernization Efforts, Subject Matter Expertise, and Surge Support. This approach ensures ICE and serviced Components, including the U.S. Citizenship and Immigration Services, the Management Directorate (Federal Protective Services, Office of Biometric Identity Management), Cyber Security and Infrastructure Security Agency, and Science and Technology Directorate maintain current operations while transitioning to a modernized financial system that aligns with regulatory requirements and strategic goals.

Justification

This funding includes \$4.2M for dual financial operations during the transition, \$1.5M for surge support to maintain business operations, \$0.3M for training, and \$0.2M for legacy system Cloud costs. The Office of Financial Management and CIFS need additional staff to handle IT system modernizations, ensuring detailed system requirements, business process changes, data migration, and archiving are effectively managed for program success.

Program Change 8 – FY 2026 Detainee Healthcare:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	182	182	\$217,084
Program Change	-	-	\$24,692

Description

ICE is committed to ensuring the health and well-being of individuals in its custody. The agency's healthcare operations are designed to deliver comprehensive medical services to all detainees, with a focus on timely and effective care. Detainee Healthcare operations provide comprehensive medical services through the dedicated efforts of the Immigration Health Service Corps (IHSC), which is responsible for assessing aliens' fitness for travel as they prepare for deportation to their country of origin. IHSC oversees compliance with medical detention standards in contracted facilities and reimburses for off-site medical intervention received by aliens in ICE custody. ICE ensures that all detainees receive necessary timely and appropriate healthcare, in support of U.S. public health objectives.

Justification

Detainee Healthcare represents requirements related to the healthcare for all illegal aliens in ICE custody. This program change sustains oversight, direction, and implementation of the healthcare provision within the detention network, which includes: intake pre-screening for communicable diseases, follow-on care, full physical examinations, mental health analysis, and urgent care visits. ICE Health Services Corp (IHSC) manages the electronic health records system (eHR) which allows ICE to maintain patient files, perform healthcare analytics and reporting, and ensure quality of care. As the baseline detention capacity for Custody Operations increases, so does the number of illegal aliens requiring healthcare and medical services while in ICE custody.

Program Change 9 – FY 2026 Detention Capacity Increase:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$2,111,418
Program Change	-	-	\$501,000

Description

ICE's operational needs are aligned with detention capacity to ensure illegal aliens in custody are kept in safe and humane conditions. ICE uses its detention resources, to detain illegal aliens pending federal immigration proceedings. Detention capacity is required for illegal aliens for whom an ICE officer determines is a national security, public safety, or flight risk during the custody determination process.

Justification

This funding will increase detention beds to 50,000 in FY 2026, reflecting the complexities of nationwide detention contracts and cost structures. These resources are essential to maintain safety and security of both staff and illegal aliens at all detention facilities, while addressing the increased operational tempo that has significantly impacted ICE's enforcement and removal operations.

Program Change 10 – FY 2026 Transportation and Removal Operations Funding Increase:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	88	88	\$860,606
Program Change	-	-	\$205,000

Description

Transportation and Removal Operations funds alien travel requirements, which includes transportation from the point of encounter at U.S. borders and points of entry; to and from detention facilities; interior locations; court appearances; healthcare appointments; and the execution of travel for a final order of removal. Transportation and Removal Program also funds all officers and support staff assigned to this program who help coordinate domestic and international travel processing and paperwork, such as scheduling, escorting, and executing ground and air movements for all population types.

Justification

This program change sustains FY 2026 operational requirements for the Transportation and Removal Program (TRP), funding alien transportation to detention facilities, court appearances, healthcare appointments, and final removal destinations. The funding is necessary to manage transportation needs effectively, including ground transportation logging over 16 million miles annually and air charters averaging 50 flights per week.

Program Change 11 – FY 2027 Contractual Support for Office of the Principal Legal Advisors Network:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$7,269
Program Change	-	-	\$8,689

Description

This program change funds contractual services to support Office of the Principal Legal Advisor (OPLA) attorneys and support staff due to increased workload. Contractual Support for Office of the Principal Legal Advisors Network allows OPLA's attorneys to focus on higher priorities such as litigating cases before EOIR.

Justification

This program change supports the Principal Legal Advisor Network (PLAnet) administrative labor contract, a strategic initiative that addresses the workload and administrative needs of OPLA. Additional funding will ensure adequate administrative support services are in place for operational fluidity by managing and coordinating legal dockets for leadership, maintaining court calendars, formatting legal briefs, organizing case files, plan evidentiary timelines, provide case status, and mitigate case conflict procedures for OPLA. Further, funding will enable OPLA to effectively carry

U.S. Immigration and Customs Enforcement**Operations and Support**

out its responsibilities at over 70 locations, support an expanded workforce, and maintain appropriate representation in immigration court proceedings.

Program Change 12 – FY 2027 ERO Overtime 60% Reduction:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	7,828	7,803	\$1,737,609
Program Change	-	-	(\$155,103)

Description

Interior enforcement of the United States Immigration and Nationality Act (INA) is carried out by law enforcement officers (LEOs) within the Enforcement and Removal Operations Program. Traditionally, these officers incur significant administratively uncontrollable overtime (AUO) hours annually through immigration enforcement activities, surge exercises, and special responses nationwide. The *Working Families Tax Cut Act* provides additional resources for ICE to hire an additional 10,000 LEOs to support the Agency mission and goals.

Justification

The increase above the baseline LEO workforce allows ICE to distribute workload requirements across a larger officer base, resulting in less overtime being incurred by the baseline LEO workforce. This program change reduces overtime funding by 60 percent, due to increased hiring of LEOs authorized by the Working Families Tax Cut Act.

Program Change 13 – FY 2027 Working Families Tax Cut Act Detention Offset:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$2,612,418
Program Change	-	-	(\$416,480)

Description

Custody Operations oversees the immigration detention system and bed space management for individuals in ICE custody. The *Working Families Tax Cut Act* (Pub. Law 119-21) affords ICE the ability to expand detention footprint according to Agency mission and goals. With this expansion, detention operations will be provided in a more effective and efficient manner.

Justification

The *Working Families Tax Cut Act* provides additional resources for ICE's overall detention operations, to include expansion of detention facilities. This Program Change decreases the program's base detention capacity by 9,500 beds to maintain 41,500 detention beds.

Program Change 14 – FY 2027 Working Families Tax Cut Act Transportation and Removal Offset:

<i>(\$ in thousands)</i>	Pos	FTE	Amount
Current Services + Transfers	-	-	\$1,065,606
Program Change	-	-	(\$350,000)

Description

The *Working Families Tax Cut Act* provides additional resources for ICE's Transportation and Removal Program (TRP) which enables ICE to expand flight and ground operations beyond Base funding levels.

Justification

This program changes reduces the Transportation and Removal Program and is offset by funding received in the *Working Families Tax Cut Act*. ICE remains committed to the safe and secure transportation of illegal aliens who are subject to final orders of removal.

PPA Level I Description

The Mission Support PPA provides funding for ICE's ES, ELO, and OPR. This PPA includes the following Level II PPAs:

Enterprise Services: This PPA funds the activities of the M&A Directorate through eight program offices and the Office of the Chief Financial Officer (OCFO), providing enterprise level services and operational support for ICE.

Office of Professional Responsibility: This PPA mitigates agency risk by upholding ICE's professional standards through a multidisciplinary approach of security, inspections, and investigations to promote organizational health, integrity, and accountability across the agency.

Executive Leadership Oversight: This PPA oversees seven program offices that support ICE's planning and execution of the goals and objectives outlined in the ICE strategic plan, strategic policy, and regulatory development to inform and empower ICE decision-makers.

Mission Support – PPA

Total - Non-Pay Cost Drivers	\$956,095	\$956,095	\$978,845	\$22,750

Explanation of Non Pay Cost Drivers

Rent: This cost driver funds all rental payments at GSA-leased and ICE-occupied facilities across the country.

Mission Support Advisory and Assistance Services: This includes the cost of financial and HR contract support as well as contract program management costs in Mission Support.

Enterprise-Wide Costs (EWC): Costs include Accident and Workers Compensation, Unemployment Compensation, Alien Files, Health Units, Printing and Graphics, Transit Subsidy, Postage and Mail Management, Federal Protective Service (FPS) Security Charges, Energy and Environment, Overtime Utilities, Direct Leasing, DHS Working Capital Fund (WCF).

Equipment: This cost driver includes the cost of equipment (communications, computer network, and technical equipment) for ICE employees.

OCIO Tactical Communications Radio Refresh and Operations & Maintenance: TACCOM includes costs for the purchase of additional hardware and network equipment to continue the refresh of 2,800 mobile radios and 2,800 portable radios nearing end-of-life that lack critical functionality and to fund ongoing maintenance and improvements.

Fleet Replacement Plan: ICE operates a diverse fleet of vehicles that range from heavy-duty armored trucks to standard law enforcement vehicles. Maintaining the fleet through critical maintenance investments, planned acquisitions, and disposals is critical to fulfilling the Agency's mission and protecting the safety of ICE officers.

Explanation of Non Pay Cost Drivers

Detention Inspections: This cost driver includes the cost of contracts for subject-matter experts who accompany Federal employees on detention compliance, Prison Rape Elimination Act (PREA) compliance, and detainee death review inspections.

Background Investigations: This cost driver funds contracts for background investigators and clerical support for background investigations tasks.

Mission Support Advisory and Assistance Services: This cost driver includes other services from non-Federal sources, contract support for OPR's tools that provide efficiencies and expediency in providing data to leadership to assist in management of OPR programs; systems for data storage and reporting; and access to systems outside of OPR and ICE with information necessary to perform OPR's mission.

Travel: This cost driver includes travel for detention inspections, ICE field office inspections, criminal and administrative misconduct investigations, and background investigations.

Equipment: This cost driver includes the cost of equipment for OPR positions.

Rent: This cost driver funds non-Federal rental payments and leases across the country.

Other Costs: This cost driver includes Front Office and General Operations, Performance Metrics, Transcription Services, and Fleet Expenses.

Explanation of Pay Cost Drivers

Non-LEOs: Mission Support Non-LEOs provide operational support, including financial, human resources, and communications management, to ICE programs.

Detention and Deportation Officers (DDOs): Mission Support DDOs are responsible for conducting the training of law enforcement personnel throughout ICE. DDOs provide ICE executive management with an independent and objective review of the performance of ICE offices and programs by assessing their compliance with Federal law, applicable policies and procedures, and the agency's own detention standards.

Criminal Investigators: Criminal Investigators (CI's) investigate criminal and administrative misconduct within ICE. Investigators have oversight of key ICE programs—the Giglio/Henthorn program, the Management Inquiry program, and the Critical Incident program—for the agency.

IT Specialists: IT Specialists manage and maintain ICE's core IT infrastructure and software, by detecting and defending against cyber threats for over 1,300 active sites and 32,000 users worldwide.

Explanation of Non Pay Cost Drivers

Training and Equipment: The Office of Firearms and Tactical Programs (OFTP) provides specialized firearms and tactical training, as well as all equipment, support, and guidance necessary to promote both officer and public safety while enabling effective execution of the ICE law enforcement mission.

Agency Management: These offices advocate for and engage stakeholders to promote intergovernmental and public partnerships; Congressional collaboration; development of broad agency regulations, policy, and immigration enforcement/detention standards; and both contribute to and implement agency goals and requirements, including application of the Civil Rights Act of 1964, as amended, as well as other applicable non-Discrimination complaint systems and affirmative employment programs.

Executive Oversight: The Office of the Director (OD) provides strategic leadership to ICE, homeland security investigations, law enforcement missions and operations, ensuring integrated and effective unity of effort across ICE to protect America from cross-border crime and illegal immigration that threatens National security and public safety. OD directs the planning of strategic and long-term goals, execution of objectives outlined in the ICE strategic plan, and provides management oversight and support to meet day-to-day organizational needs

PPA Level I Description

OPLA is the largest legal component within the DHS Office of the General Counsel, with more than 1,500 attorneys and nearly 300 support staff working in 94 locations throughout the United States and at ICE Headquarters. OPLA serves as the exclusive DHS representative in removal proceedings before DOJ EOIR, the agency responsible for conducting administrative immigration proceedings in the United States. These proceedings involve complicated legal issues of citizenship, removability from the United States, and the eligibility for immigration relief, along with reviewing cases for specialized removal charges.

OPLA attorneys also manage a federal litigation docket, including serving as Special Assistant United States Attorneys, and assist the DOJ in representing DHS before federal courts, including petitions for writ of habeas corpus; complex federal district court lawsuits, including class actions or putative class actions; litigation matters under FOIA; and employment-related litigation matters. In addition, OPLA attorneys adjudicate administrative claims under the Federal Tort Claims Act and process requests for DOJ representation on behalf of ICE employees sued in their individual capacities. OPLA attorneys train ICE personnel and provide expert legal counsel in the areas of customs, immigration, and criminal law; labor and employment law; commercial and administrative law; and ethics standards.

Explanation of Pay Cost Drivers

Attorneys: OPLA attorneys deliver legal counsel and representation, conduct personnel training, and offer litigation support to ICE programs. They act as the sole DHS representatives in removal proceedings before the Department of Justice's Executive Office for Immigration Review (EOIR), which oversees administrative immigration hearings in the United States.

Non-Attorneys: Non-attorney OPLA staff provide critical legal and administrative assistance to increase the effectiveness of attorneys serving within OPLA. Non-attorney staff support OPLA attorneys by receiving and inputting into PLANet, OPLA's internal case management system, motions from the private bar, orders from EOIR, and other evidentiary documents. Non-attorney staff members also answer general inquiries, order, route, and prepare files needed for removal proceedings, ensure attorneys have access to various systems and databases and supply them with necessary equipment, handle legal processes, and assist with other administrative tasks thereby allowing attorneys to focus on litigation and other legal work.

Other PC&B Costs: This category includes benefits for former personnel, covering costs like retirement, health insurance, and other benefits for individuals who are no longer employees but are receiving entitlements.

Explanation of Non Pay Cost Drivers

Case Management System: PLAnet, OPLA's Case Management System, provides a repository for all of ICE's attorneys' casework related to immigration and removal proceedings. PLAnet also tracks all Federal litigation, labor and employment, ethics cases, and other work handled by OPLA. Additionally, ICE's eService program, also under PLAnet, enables electronic services to the immigration court. Finally, OPLA attorneys tracks all training and ancillary work within the system.

Document Scanning and Litigation Contract Support: Document Scanning and Litigation Contract Support assists in litigation discovery requirements and helps provide document scanning, indexing, and data entry support services into PLAnet for charging documents, criminal history reports, court orders, and other legal correspondence for OPLA attorneys Nationwide. Litigation Contract Support allows OPLA to reduce certain burdens on attorneys and improves litigation support and information sharing.

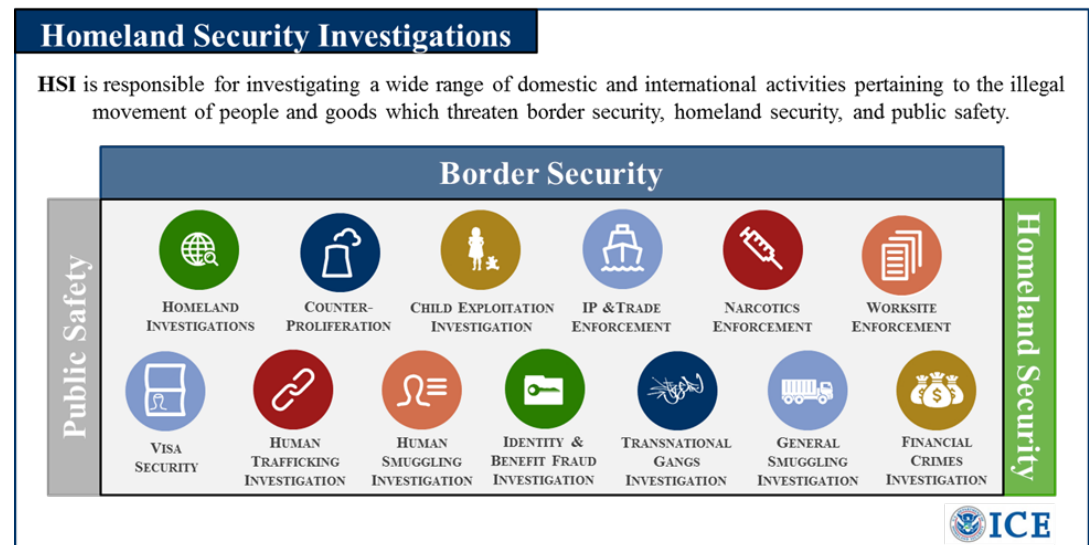

Other Costs: Other Costs include travel, costs associated with the case management system, ICE's Electronic Discovery System (Relativity), and other contractual requirements (e.g., FOIA express and Office of Personnel Management), which fall under advisory services.

PPA Level I Description

This PPA funds HSI, which is responsible for disrupting and dismantling transnational criminal threats facing the United States. HSI Special Agents are authorized to conduct investigations of violations of federal law. As the largest investigative unit within DHS, HSI uses its broad authority to investigate transnational crimes and threats to national security related to people, goods, and money. HSI partners with other Federal agencies, State and local law enforcement, international organizations, and foreign country law enforcement. HSI Special Agents investigate a wide range of illegal activities with a focus on identifying, mitigating, and eliminating the most significant threats to the safety and security of the American public.

This PPA contains the following Level II PPAs:

Domestic Investigations: Domestic Investigations conducts criminal investigations throughout the United States to protect against terrorists, TCOs, and other malicious actors who attempt to exploit America’s trade, travel, and financial operations and threaten public safety and national security. Domestic operations partners with Federal, State, tribal, local, and foreign law enforcement to combat human trafficking, human smuggling, online child exploitation, drug trafficking, gangs, money laundering, and the exploitation of U.S. customs and immigration laws.

Domestic operations consist of HSI Special Agents and a wide range of support personnel that specialize in duties ranging from Polygraph Examiners, Forensic Document Examiners, Fingerprint Specialists, Intelligence, Immigration and Adjudication Officers, Scientists, Management and Program Analysts and Specialists. All these positions are critical to support and manage programs that focus on cartels, gangs, and labor enforcement operations.

International Operations: International Operations’ global investigative and law enforcement activities target TCOs engaged in human trafficking, narcotics, money laundering, firearms, the illicit movement of sensitive technologies, as well as investigating the sexual exploitation of children, including child sex tourism. International Operations partners with foreign law enforcement to investigate transnational crimes that impacts both the United States, as well as other nations and assists the Department of State (DOS) in identifying individuals of concern who are attempting to obtain a U.S. Visa.

Intelligence: HSI Intelligence (HSI Intel) conducts complex analysis of criminals and their networks to support HSI investigations and investigative priorities. HSI Intel produces timely, comprehensive, accurate criminal analysis that illuminates criminal networks to identify, prioritize, investigate, disrupt, and dismantle terrorist and criminal networks, and any other individual or organization that threatens national security or seeks to violate the customs and immigration laws of the United States.

Explanation of Pay Cost Drivers

Special Agents: HSI Domestic Investigations Special Agents (SAs) support the largest, principal criminal investigative component of DHS in its efforts to investigate and combat TCOs, immigration violators, and other threats to the homeland. Payroll enhanced as a result from the annual compounding of pay raises, the annualization process, and the addition of Law Enforcement pay raise.

Operational and Administrative Staff: HSI Domestic Investigations operational and administrative staff provide investigative and mission-enhancing support to ongoing casework via administrative and analytical capabilities that boost Special Agent productivity.

Other PC&B Costs: Personnel, Compensation, and Benefits costs for HSI Special Agents include Special Personal Services Payments.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Fleet / Fuel	\$107,752	\$107,752	\$107,752	-

Total - Non-Pay Cost Drivers	\$359,190	\$359,190	\$364,568	\$5,378

Explanation of Non Pay Cost Drivers

Fleet/Fuel: Fleet/Fuel supports fuel and general maintenance costs for vehicles and the cost of retrofitting vehicles with tactical radios and safety equipment.

Special Agents-in-Charge (SAC) Funding: SAC funding covers operational travel, training, small contracts, and supplies for 25 SAC offices.

Equipment: Equipment includes vehicles, body worn radios, network related equipment, security equipment, and other equipment required by Special Agents to carry out ICE's Mission.

Headquarters Contracts: Headquarters contracts provide support for investigative activities and include, but are not limited to, Title-III contracts, IT infrastructure and program management support, and data analytic support to operations.

Other Costs: Other Costs include one-time charges (i.e., furniture, uniforms, phones) to support HSI staff.

Total - Non-Pay Cost Drivers	\$137,507	\$137,507	\$132,019	(\$5,488)

Explanation of Non Pay Cost Drivers

Department of State Charges: The Bureau of Overseas Building Operations assesses ICE its share of the cost of providing secure, safe, and functional facilities at U.S. embassies and consulates abroad.

Permanent Change of Station: Permanent Change of Station (PCS) includes the costs associated with relocating HSI employees assigned to U.S. missions abroad.

Housing Rent: HSI employees assigned to U.S. missions abroad may be provided housing in U.S. Government-owned or leased properties.

Other Costs: Other non-pay costs include travel, shipping, and purchase of IT and non-IT equipment, O&M for vehicles.

Explanation of Pay Cost Drivers

Operational and Administrative Staff: Non-LEO investigative support staff, such as Intelligence Research Specialists (IRSs), offer cost-effective, force-multiplying support to special agents without requiring the same high level of expertise or training.

Special Agents: HSI Intelligence Criminal Investigators (CIs) collect, analyze, and share intelligence on illicit trade, travel, and financial activity. Other HSI CIs, along with DHS and intelligence community partners, use this intelligence to counter threats to public safety and National security.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Classified Connectivity	\$8,118	\$8,118	\$7,504	(\$614)
Intelligence Systems	\$8,853	\$8,853	\$5,881	(\$2,972)

Total - Non-Pay Cost Drivers	\$21,240	\$21,240	\$19,619	(\$1,621)

Explanation of Non Pay Cost Drivers

Classified Connectivity: Classified Connectivity costs support deployment of SECRET and TS/SCI systems across the Agency.

Intelligence Systems: Intelligence Systems costs directly support mission critical Intelligence efforts facilitated and enhanced through investigative tools (e.g., RAVEN, CRANE, and CORE).

Contract Support: Contract Support provides funds for HSI Intelligence field offices and headquarters activities (e.g., Intelligence Research Specialist (IRS) Career Path Development/Support, data analysis support from the DOW Joint Improvised Defeat Organization, etc.).

Other Costs: Other non-pay costs include furniture, uniforms, travel, training and O&M for vehicles.

PPA Level I Description

ERO enforces the Nation's immigration laws by identifying and apprehending illegal removable aliens, detaining apprehended individuals when necessary, and removing them from the United States in a manner consistent with legal processes and procedures. ERO carries out its mission through a range of programs and activities that focus on identifying and prioritizing the removal of illegal aliens who pose a threat to national security, border security, and public safety.

ERO works with other DHS Components, States, counties, and localities across the United States to uphold U.S. immigration laws at, within, and beyond the borders through efficient enforcement and removal operations.

This PPA contains the following Level II PPAs:

Custody Operations: Custody Operations oversees the immigration detention system and manages cases of illegal aliens undergoing proceedings and, if applicable, removal.

Fugitive Operations Program: The Fugitive Operations Program identifies, locates, and arrests removable illegal aliens present in the United States.

Criminal Alien Program: The Criminal Alien Program (CAP) uses statutory authority to investigate, apprehend and remove dangerous, often recidivist, illegal criminal aliens who are at-large or incarcerated within Federal, State, and local prisons and jails.

Alternatives to Detention: The Alternatives to Detention Program (ATD) supervises certain aliens using a combination of home and office visits, alert response, court tracking, and monitoring technology as an alternative to detention, allowing participating aliens to remain in their communities while their cases are processed.

Transportation and Removal Program: The Transportation and Removal Program (TRP) coordinates the safe and secure transportation of illegal aliens who either are subject to final orders of removal or require custodial transfer within the United States.

Enforcement and Removal Operations – PPA

Explanation of Pay Cost Drivers

Detention and Deportation Officers (DDOs): Custody Operations manages the immigration detention system. DDOs focus primarily on detention bed space and detainee management.

Non-LEOs: Non-LEOs assist with supporting activities for the Custody and Resource Coordination program and ICE Health Services Corps such as the coordination of supplies, equipment, healthcare, food, and clothing for detainees.

Other PC&B Costs: Personnel, Compensation, and Benefits costs for ERO Deportation Officers include Special Personal Services Payments.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Detention Facility Ops	\$2,109,255	\$2,084,563	\$2,072,833	(\$11,730)
Detainee Medical Cost	\$186,999	\$211,691	\$211,691	-
Non-Medical Support Contracts	\$132,791	\$132,791	\$132,980	\$189
Third Party Medical	\$113,335	\$113,335	\$113,499	\$164
Program & ERO Mission Support	\$86,312	\$86,312	\$86,435	\$123
OCIO Service Level Agreement (SLA)	\$40,008	\$40,008	\$40,065	\$57
Other Costs	\$43,729	\$43,729	\$43,790	\$61
Total - Non-Pay Cost Drivers	\$2,712,429	\$2,712,429	\$2,701,293	(\$11,136)

Explanation of Non Pay Cost Drivers

Detention Facility Operations: Direct cost of maintaining detention facility capacity and all operations pertaining to the detention of aliens in ICE custody.

Detainee Medical Cost: Direct cost related to healthcare services for detained aliens in ICE custody at facilities staffed by ICE's own healthcare authority.

Non-Medical Support Contracts: Agreements for services or supplies that do not involve direct medical care or clinical services. These contracts typically cover a wide range of operational, logistical, and administrative support functions.

Third Party Medical: Direct cost of healthcare services provided to detained aliens in ICE custody but treated by medical staff in a facility not staffed by ICE's own healthcare authority.

Program & ERO Mission Support: Represent the essential resources required to sustain and enhance the operational effectiveness of ERO programs. These costs ensure personnel, infrastructure, and technology are available to support the agency's mission of enforcing immigration laws and maintaining public safety.

OCIO Service Level Agreement (SLA): A vital tool for aligning IT services with organizational needs. It fosters trust, transparency, and accountability, ensuring leadership and the public can rely on OCIO to deliver high-quality, dependable technology solutions.

Other Costs: Other Costs include non-detention non pay and one-time charges (e.g., furniture, uniforms, phones, Operations & Maintenance (O&M) for vehicles).

Explanation of Pay Cost Drivers

Detention and Deportation Officers (DDOs) The DDOs make up Fugitive Operations Teams that identify, locate, and arrest fugitive aliens.

Non-LEOs: DDOs are enabled by non-LEOs who provide mission support in the form of file development, target analysis, and criminal history verifications. Non-LEOs also ensure that DDOs receive sufficient support to maximize their effectiveness.

Other PC&B Costs: This category includes benefits for former personnel, covering costs like retirement, health insurance, and other benefits for individuals who are no longer employees but are receiving entitlements.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Equipment	\$1,314	\$1,314	\$3,973	\$2,659

Total - Non-Pay Cost Drivers	\$5,362	\$5,362	\$8,235	\$2,873

Explanation of Non Pay Cost Drivers

Equipment: This cost driver consists of necessary equipment to support law enforcement operations. Examples include biometric readers, laptops, desktops, vehicles, and other equipment.

Travel: Associated with mission critical travel (e.g., Mobile Criminal Alien Teams (MCATs)) and surges in order to apprehend fugitive and criminals at-large.

Fugitive Operations Contracts: Fugitive Operations contracts provide advanced data analytics, data processing, and data access services from third-party organizations.

Other Costs: Other Costs include one-time charges (e.g., furniture, uniforms, phones, Operations & Maintenance for vehicles) to support Fugitive Operations staff.

Explanation of Pay Cost Drivers

Detention and Deportation Officers (DDOs): CAP DDOs apprehend and remove incarcerated criminal aliens within Federal, State, and local prisons and jails in the United States.

Non-LEOs: Non-LEOs assist with mission-critical administrative functions, such as data and records management, to enable DDOs to process an increased number of administrative removals.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Law Enforcement Systems and Analysis (LESA)	\$16,159	\$16,159	\$9,189	(\$6,970)
Law Enforcement Support Center (LESC) / Field Offices	\$12,027	\$12,027	\$8,271	(\$3,756)
Equipment	\$470	\$470	\$2,507	\$2,037
Travel	\$819	\$819	\$771	(\$48)
Other Costs	\$453	\$453	\$179	(\$274)
Total - Non-Pay Cost Drivers	\$29,928	\$29,928	\$20,917	(\$9,011)

Explanation of Non Pay Cost Drivers

Law Enforcement Systems and Analysis (LESA): This cost driver includes contracts for project management support for LESA. It provides for the analysis of nationwide enforcement operations as well as coordination with State and local law enforcement jurisdictions to support immigration priorities. It is derived from costs associated with project management contract support to improve data analysis and technology of immigration policy.

Law Enforcement Support Center (LESC) / Field Offices: Contracts support nationwide enforcement operations as well as coordination with State and local law enforcement jurisdictions to support immigration priorities. The LESC provides Law Enforcement Agencies with timely immigration status, identity information, real-time assistance, and other person-centric information regarding immigration status and criminal history of persons under investigation, in custody, or otherwise encountered.

Equipment: This cost driver includes vehicles, radios, and other law enforcement equipment required by LEOs to carry out ICE's mission.

Travel: Travel within the interior of the United States for the arrest of at-large criminal aliens. It is derived from projected mission critical travel and/surges to apprehend and arrest at-large criminal aliens.

Other Costs: Other Costs include one-time charges (e.g., furniture, uniforms, phones) for support LEOs.

Explanation of Pay Cost Drivers

Detention and Deportation Officers (DDOs): ATD DDOs provide oversight to aliens eligible for ATD through contractor-supported case management utilizing technology, home and office visits, alert response, and residence verifications.

Non-LEOs: ATD non-LEOs perform administrative duties, such as court case tracking and case management, to allow ATD LEOs to focus on their mission-facing functions.

Total - Non-Pay Cost Drivers	\$223,219	\$223,219	\$316,174	\$92,955

Explanation of Non Pay Cost Drivers

ATD ISAP IV (no FERM): Case management, technology, and contractor support to facilitate alien compliance with immigration release conditions, court hearings, and final orders of removal from the United States.

Program & ERO Mission Support: Represent the essential resources required to sustain and enhance the operational effectiveness of ERO programs. These costs ensure that personnel, infrastructure, and technology are available to support the agency's mission of enforcing immigration laws and maintaining public safety.

Rapid DNA Testing: A rapid, low-cost, DNA-based family relationship (kinship) verification to improve immigration efficiency for legal kinship applicants, reduce kinship fraud, provide for family reunifications and conduct DNA watch list checks.

Swift Contract Support: A program designed to streamline the processing and transfer of noncitizens who are in ICE custody, particularly those who are subject to removal from the United States.

SWB Detailers: Refers to ICE/ERO officers or staff who are temporarily assigned ("detailed") to work at or near the Southwest Border of the United States. These assignments are usually in response to increased migration flows or operational needs at border facilities.

ATD Kiosk Project: Refers to a technological initiative within the Alternatives to Detention (ATD) program managed by ICE. The project involves the use of kiosks as a method for noncitizens enrolled in ATD to check in and comply with supervision requirements, rather than being held in detention.

USCIS Notice To Appear Mailout Support: Issued by the USCIS, NTA formal documentation initiates removal (deportation) proceedings against an alien in the United States. It requires the individual to appear before an immigration judge and lists the alleged violations of immigration law.

Family Expedited Removal Management (FERM): Refers to a technological initiative within the Alternatives to Detention (ATD) program managed by U.S. Immigration and Customs Enforcement (ICE). The project involves the use of kiosks as a method for aliens enrolled in ATD to check in and comply with supervision requirements, rather than being held in detention. This cost driver has been discontinued to better reflect ATD actual costs.

Explanation of Pay Cost Drivers

Detention and Deportation Officers (DDOs): TRP DDOs coordinate the safe and secure transportation of aliens.

Non- LEOs: TRP non-LEOs include Air Operations staff who coordinate ICE charter air flights in the United States and around the world and arrange commercial flights for the removal of aliens.

Non Pay Cost Drivers*(Dollars in Thousands)*

	FY 2025 Full-Year CR	FY 2026 Annualized CR	FY 2027 President's Budget	FY 2026 to FY 2027 Total Changes
Charter Aircraft	\$430,248	\$430,248	\$396,561	(\$33,687)

Total - Non-Pay Cost Drivers	\$808,584	\$808,584	\$721,030	(\$87,554)

Explanation of Non Pay Cost Drivers

Charter Aircraft: Air transportation of aliens between facilities, home countries, or other countries. Air transportation moves large groups efficiently and securely, often to destinations not served by commercial airlines.

Ground Transportation: Travel that occurs on land, moving aliens or staff using vehicles like buses, vans, cars, or trains.

Unaccompanied Children (UC)/Family Unit: UC transport requires officer escorts in the transfer of these minors to the HHS Office of Refugee Resettlement (ORR).

Escort Cost (Commercial Air): Expenses for law enforcement or immigration authorities to escort an alien on a regular commercial airline flight, rather than on a chartered aircraft.

Family Reunification Task Force: Implements comprehensive strategies that bring families back together and ensure children and parents who were separated are provided support.

Family Expedited Removal Management (FERM): Travel expenditures associated with the removal of families who were enrolled in the FERM ATD program. This cost driver has been discontinued to better reflect TRP actual costs.

Other Costs: Include one-time charges (e.g., furniture, uniforms, phones, O&M for vehicles) to support TRP staff.

Total	\$55,520	\$55,520	-	(\$55,520)
Subtotal Discretionary - Appropriation	\$55,520	\$55,520	-	(\$55,520)

The U.S. Immigration and Customs Enforcement (ICE) Procurement, Construction, and Improvements (PC&I) appropriation provides the funding necessary for investment planning, operational development, engineering, and procurement of headquarters and field office operational assets and systems prior to transitioning to the operations and maintenance sustainment phase. These investments support the improvement, deployment, and modernization of facilities, Information Technology (IT) applications, and systems, which provide the necessary infrastructure and tools to support the ICE front-line mission operators and enable them to administer and enforce customs and immigration laws.

PC&I resources support the operational availability of IT infrastructure, a safe working environment across ICE frontline operations, and the delivery of critical, mission-facing capabilities across the following Programs, Projects, and Activities (PPAs):

Mission Support Assets and Infrastructure: No funding is included in this PPA in the FY 2027 Budget. This PPA supports the development, modernization, and enhancement of ICE-centralized business administration systems and ICE-wide IT infrastructure.

Operational Communications/Information Technology: No funding is included in this PPA in the FY 2027 Budget. This PPA supports the development of mission-specific IT systems.

Construction and Facility Improvements: No funding is included in this PPA in the FY 2027 Budget. This PPA supports necessary improvements and critical repairs of existing ICE-owned facilities, as well as tenant improvement to meet new and existing leased facility requirements. These investments ensure facilities requirements are met to support the operational mission in a safe, reliable, and sustainable manner.

PPA Level I Description

The Mission Support Assets and Infrastructure PPA provides funding for the development, modernization, and enhancement of ICE-centralized business administration systems and ICE-wide IT infrastructure. Activities that receive funding through this PPA allow ICE personnel to operate in a modern IT environment and access ICE and DHS Component enterprise applications and tools. Business administration systems encompass financial management, acquisition, human resources, training, personnel security and safety, and task/correspondence tracking, as well as the following corporate IT applications: email, collaboration tools, cybersecurity, Office of the Chief Information Officer services, networks, and platforms, such as the Cloud.

This PPA is comprised of the following investment/activity:

Consolidated ICE Financial Solution (CIFS): No funding is included in this PPA in the FY 2027 Budget. ICE is replacing aging legacy financial systems through the implementation of a modern, enterprise-wide financial management system. The modernization effort will ensure continued compliance with current and emerging federal financial management and reporting requirements. ICE provides finance and accounting services to Departmental Management and Operations, Cybersecurity and Infrastructure Security Agency, Science and Technology Directorate, and the U.S. Citizenship and Immigration Services. ICE will sustain compliant financial operations across all supported components while a phased transition to a modernized financial system is executed, thereby reducing operational risk and strengthening financial oversight and reporting capabilities.

Human Resources Information Technology (HRIT): No funding is included in this PPA in the FY 2027 Budget. This investment funds the modernization of ICE's Human Resources (HR) technology network, which will streamline HR processes.

Subtotal Discretionary - Appropriation	\$30,872	\$30,872	-	(\$30,872)

PPA Level I Description

The Operational Communications/Information Technology PPA supports the development, modernization, and enhancement of tactical communications and mission-specific IT systems for the Office of the Principle Legal Advisor, Homeland Security Investigations (HSI), and Enforcement and Removal Operations Directorates. Activities funded through this PPA strengthen law enforcement case management, expand tactical radio communications coverage, and deploy capabilities that directly support the ICE mission of enforcing Federal laws governing border control, customs, trade, and immigration.

This PPA is comprised of the following investments/activities:

Repository for Analytics in a Virtualized Environment (RAVEN): No funding is included in this PPA in the FY 2027 Budget. The RAVEN is the technical platform supporting the HSI Innovation Lab and powering the agency's advanced analytic capabilities. RAVEN enhances HSI's ability to support its mission to disrupt and dismantle transnational criminal organizations, fight terrorism, and protect the homeland.

Investigative Case Management (ICM): No funding is included in this PPA in the FY 2027 Budget. ICM refers to the systematic process of organizing, tracking, and managing information, tasks, and activities related to an investigation. This includes Case Intake and Assignment, Data Collection and Documentation, Task Management, Collaboration, Analysis and Reporting, and Case Closure and Archiving.

I-9 Portal: No funding is included in this PPA in the FY 2027 Budget. The portal enables employers to upload I-9 and supporting documentation to a centralized location for HSI agents to review. The I-9 portal is secure and publicly accessible and able to host many documents of varying file types. The I-9 portal has an internal functionality to notify agents when documentation is uploaded and provides a return status back to agents and the employers as document review moves through the workflow process.

PPA Level I Description

The Construction and Facility Improvements PPA provides resources to support construction and improvements to existing ICE-owned and leased facilities. These sites provide both office and mission space for ICE Law Enforcement Officers and Attorneys, as well as mission support employees, and the sites serve the operational requirements of medical screening, processing, and housing for noncitizen detainees.

This PPA is comprised of the following investment/activity:

Critical Repair/Replacement Requirement: No funding is included in this PPA in the FY 2027 Budget. This activity funds major renovations, tenant improvements, restoration, and modernization to owned and leased facilities with the objective of improving efficiency and establishing new or replacement leased facility locations. This activity also includes construction of new ICE-owned facilities and replacement of existing facilities that have exceeded their useful life to effectively and efficiently support ICE missions.

*Immigration Inspection User Fees***Budget Comparison and Adjustments****Comparison of Budget Authority and Request***(Dollars in Thousands)*

	FY 2025 Full-Year CR			FY 2026 Annualized CR			FY 2027 President's Budget			FY 2026 to FY 2027 Total Changes		
	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount
Immigration Inspection User Fees	-	-	\$135,000	-	-	\$135,000	-	-	\$135,000	-	-	-
Total	-	-	\$135,000	-	-	\$135,000	-	-	\$135,000	-	-	-
Subtotal Mandatory - Fee	-	-	\$135,000	-	-	\$135,000	-	-	\$135,000	-	-	-

Fee Authority: 8 U.S.C. § 1356; 8 C.F.R. Part 2: Codified at 8 U.S.C. § 1356(d), the Immigration and Nationality Act provides the authority to impose user fees for travelers arriving in the United States by a commercial vessel or commercial aircraft at U.S.-operated air and seaports of entry (POEs), including the Immigration Inspection User Fee (IIUF). The IIUF is currently set at \$7.00 for passengers arriving via an air or sea POE when the trip originated abroad, and \$3.00 for passengers arriving at a sea POE when the trip originated in the United States, Mexico, or Canada.

Fee Uses: IIUF collections provide budgetary resources that help fund frontline mission activities of both U.S. Customs and Border Protection (CBP) and U.S. Immigration and Customs Enforcement (ICE). Specifically, IIUF finances a portion of ICE and CBP expenses related to deterring, detecting, detaining, adjudicating, and removing passengers attempting to make unauthorized arrivals or bring noncitizens unlawfully into the United States through air and sea POEs.

Although proceeds to ICE are governed by 8 U.S.C. § 1356(h)(2)(A), the use of user fees is governed by subsection 1356(i) which states, in relevant part: “only to the extent provided in appropriations Acts, any amounts collected under this subsection shall be credited as offsetting collections to the currently applicable appropriation, account, or fund of U.S. Customs and Border Protection, remain available until expended, and be available for the purposes for which such appropriation, account, or fund is authorized to be used.”

Fees are collected by CBP from foreign passengers arriving on commercial aircraft and vessels at U.S.-operated air and sea POEs. In FY 2027, CBP will receive 82.6 percent, and ICE will receive 17.4 percent of total collections. Estimates remain at current statutorily established levels.

IIUF reimburses costs incurred by four ICE Directorates within the Operations and Support appropriation. ICE determines the allocation of IIUF for each Program, Project, and Activity (PPA) based on the level of activity each program contributes toward related work, as determined by the annual ICE Immigration User Fee Study. The PPAs include:

- Mission Support: IIUF funds the expansion, operation, and maintenance of information systems for non-immigrant control and debt collection. Funds also sustain Mission Support activities indirectly associated with the detection, detention, adjudication, and removal of illegal aliens, criminals and those illegally present in the United States, as well as for any purpose for which the Mission Support PPA appropriation is authorized to be used.
- Office of the Principal Legal Advisor (OPLA): IIUF collections compensate OPLA for costs incurred for removal and asylum proceedings of inadmissible illegal aliens arriving on commercial aircraft and vessels. Funds also support immigration removal proceedings resulting from drug possession, presentation of fraudulent documents and/or failure to present documentation, as well as those for any illegal alien who is inadmissible under 8 U.S.C. § 1182(a) for having attempted illegal entry into the United States through avoidance of immigration inspection at air or sea POEs, as well as for any purpose for which the OPLA PPA appropriation is authorized to be used.
- Homeland Security Investigations (HSI): IIUF funds activities related to the detection of fraudulent documents used by passengers traveling to the United States, including for the training of and technical assistance to commercial airline personnel regarding such detection. Additionally, funds are used to cover the operational costs that support investigations of illegal aliens encountered or arrested at air or sea POEs, and for the development of Homeland Security Intelligence Reports that support CBP inspection and pre-inspection activities. IIUF collections also partially reimburse base funding to cover fuel and maintenance costs for vehicles, as well as for any purpose for which the HSI PPA appropriation is authorized to be used.
- Enforcement and Removal Operations (ERO): IIUF funds detention and removal services for inadmissible illegal aliens arriving on commercial aircraft and vessels, and for any illegal alien who is inadmissible under 8 U.S.C. § 1182(a) for having attempted illegal entry into the United States through avoidance of inspection at an air or sea POE. IIUF collections also may partially reimburse base funding to cover fuel and maintenance costs for vehicles, as well as for any purpose for which the ERO PPA appropriation is authorized to be used.

Change Mechanism: Any proposed fee amount changes must be submitted by legislative proposal.

Previous Changes: Amendments to 8 U.S.C. § 1356, passed in 1986, allowed the Immigration and Naturalization Service to begin charging a fee for the inspection of passengers on commercial aircraft or vessels. The fee was initially set at \$5.00 per passenger in 1986, increased to \$6.00 per passenger in 1993 and to \$7.00 per passenger in May 2002. The legislation that increased the fee to \$7.00 introduced a second fee of \$3.00 per passenger effective February 27, 2003. This second fee applied to vessel passengers whose journey originated in the United States, Canada, or Mexico. Passengers to whom the \$3.00 fee applied had previously been exempt.

Recovery Rate: The fee rate does not recover the full cost of the activities being conducted but supplements other appropriated and non-appropriated sources.

Explanation of Non Pay Cost Drivers

Headquarters Contracts: These contracts provide support for investigative activities and include but are not limited to: Title-III wiretap contracts; multiple tracking and data analysis systems; and consolidated IT equipment purchases.

Fleet/Fuel: IIUF funds partially reimburse base-appropriated expenses to cover fuel and maintenance costs for over 6,000 ICE vehicles.

Permanent Change of Station (PCS): PCS includes the costs associated with relocating employees to domestic or overseas offices.

Other Costs: Other costs include one-time charges for travel, temporary duty travel (TDY), rental utilities, and equipment.

Comparison of Budget Authority and Request

(Dollars in Thousands)

	FY 2025 Full-Year CR			FY 2026 Annualized CR			FY 2027 President's Budget			FY 2026 to FY 2027 Total Changes		
	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount
Breached Bond Detention Fund	-	-	\$55,000	-	-	\$55,000	-	-	\$55,000	-	-	-
Total	-	-	\$55,000	-	-	\$55,000	-	-	\$55,000	-	-	-
Subtotal Mandatory - Fee	-	-	\$55,000	-	-	\$55,000	-	-	\$55,000	-	-	-

Fee Authority: The Breached Bond Detention Fund (BBDF) is authorized in Section 112 of the Department of Justice Appropriations Act of 1993 (Pub Law 102-395). This Act amended Section 286 of the Immigration and Nationality Act of 1952 by establishing in the General Fund of the Treasury, a separate account to be called the Breached Bond Detention Fund. Pursuant to statute, ICE remits the first \$8.0M collected to the General Fund of the U.S. Treasury. All additional collections are deposited into the BBDF, and amounts remain available until expended. There are two sources of revenue for the BBDF:

1. Immigration bonds posted for the release of noncitizens detained by Enforcement and Removal Operations (ERO) field offices, as authorized by Title 8 of C.F.R. Subsection 103.6; and,
2. Application fees authorized by Section 245(i) of the Legal Immigrant and Family Equity (LIFE) Act.

Fee Uses: The BBDF provides budgetary resources for detention bed expenses and other Bond Management Unit (BMU) costs incurred by ERO. The fund covers collection, bond management, detention, and litigation activities. Litigation activities target compliance from surety companies found to be delinquent in meeting their obligations. ERO's BMU administers the BBDF and supports field operations by providing guidance related to immigration bond management. The BMU also ensures compliance with bond laws, regulations, policies, and procedures through training, site visits, and technical oversight and coordinates with other ICE programs to facilitate the timely resolution of bond litigation issues, as well as for financial reporting.

U.S. Immigration and Customs Enforcement**Breached Bond Detention Fund**

The BBDF offsets costs incurred in the ERO Directorate within ICE's Operations and Support (O&S) appropriation. ERO uses BBDF collections as follows:

- Supporting the detention of illegal aliens, including for related costs such as health care and non-bed general expenses;
- Financing the collection of breached bonds, bond management, and litigation activities to target compliance from surety companies found to be delinquent in meeting their obligations; and
- BMU administrative support, including mission related travel, training, bond reviews, and IT systems requirements.

Change Mechanism: Any proposed changes in the amounts designated in the annual President's Budget require authorization from the Office of Management and Budget.

Previous Changes: In 1998, Immigration Detention Account (INA) receipts merged into this account. Congress enacted the LIFE Act, which extended the eligibility date for 245(i) of the INA from 1998 to 2000.

Recovery Rate: Title 8 does not specify whether the intention of this fee was full cost recovery. Pursuant to statute, all fees in excess of the first \$8.0M are available until expended. Fees are not set based on expected costs. The amount of an immigration bond is set to guarantee that the alien the bond is for will fulfill their obligations to the government. Application fees authorized by Section 245(i) of the LIFE Act are set by U.S. Citizen and Immigration Services.

Explanation of Non Pay Cost Drivers

Bond Management Unit (BMU): BBDF resources are also used to provide non pay administrative support to the BMU, which supports field operations by providing guidance related to immigration bond management. This support includes mission related travel, training, bond reviews, and IT system requirements.

Contracts – Detention Beds / Guards / Noncitizen Welfare (Adult): Adult detention costs have several components, including detention bed acquisition, guard services, detainee meals, welfare items, health care, and other indirect costs.

(Dollars in Thousands)

	FY 2025 Full-Year CR			FY 2026 Annualized CR			FY 2027 President's Budget			FY 2026 to FY 2027 Total Changes		
	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount
Student and Exchange Visitor Program	397	376	\$186,610	397	376	\$186,610	397	376	\$216,500	-	-	\$29,890
Total	397	376	\$186,610	397	376	\$186,610	397	376	\$216,500	-	-	\$29,890
Subtotal Mandatory - Fee	397	376	\$186,610	397	376	\$186,610	397	376	\$216,500	-	-	\$29,890

Fee Authority: 8 U.S.C. § 1372(e): The Secretary of Homeland Security is specifically authorized to collect fees for the Student and Exchange Visitor program (SEVP) from prospective F and M students, and J exchange visitors, subject to certain limits for certain J-1 noncitizens, per 8 U.S.C. § 1372(e)(1). Further, Section 286(m) of the *Immigration and Nationality Act* (INA) authorizes the Secretary to collect fees for adjudication and naturalization services at a level that would ensure recovery of the full costs of providing such services. All fees collected are deposited as offsetting receipts into the Immigration Examinations Fee Account (INA section 286(m)(n)) and are available until expended.

Fee Uses: SEVP is an enforcement program that helps to keep the United States safe while facilitating the participation of non-U.S. students and exchange visitors in domestic academic programs. Homeland Security Investigations (HSI) uses SEVP funds to enhance national security by collecting, maintaining, and providing reliable information on foreign students, exchange visitors, and the schools and exchange programs hosting participants. The HSI National Security Division (NSD) administers SEVP, which includes overseeing the School Certification Program and managing the Student and Exchange Visitor Information System (SEVIS), a web-based system for maintaining information on international students and exchange visitors who have been approved to work while in their program. HSI uses SEVP funds to collect, maintain, analyze, and provide information so that only legitimate foreign students or exchange visitors can gain entry to the United States. HSI also uses SEVP resources to verify that the over one million international students and their dependents holding temporary visas in the United States comply with U.S. laws, to enforce compliance with school certification programs, and to work with NSD partners to reduce both the risk of benefit fraud and the exploitation of the student visa system.

Change Mechanism: The Secretary is authorized to periodically revise program participation fees, with certain exceptions, to consider changes in the overall cost of carrying out the program.

Previous Changes: After an internal review to determine if existing fees would cover the full cost of operations, U.S. Immigration and Customs Enforcement (ICE) proposed to adjust SEVP fees and to receive public comment via a notice of proposed rulemaking in the Federal Register. The fee increase was approved by the Secretary of Homeland Security, effective June 24, 2019.

Recovery Rate: Section 286(m) of the INA authorizes the Secretary of Homeland Security to collect fees for adjudication and naturalization services at a level that would ensure recovery of the full costs of providing such services, including the costs of providing similar services without charge to asylum applicants and certain other noncitizens. Additionally, pursuant to INA section 286(m), the level that is set may include recovery of any additional costs associated with the administration of the fees themselves. Section 51.13 of the Office of Management and Budget (OMB) Circular A-11, Preparation, Submission and Execution of the Budget, December 2019, directs agencies to develop user charge estimates based on the full cost recovery policy set forth in OMB Circular A-25, User Charges (budget formulation and execution policy regarding user fees). SEVP is intended to be full-cost recovery.

	FY 2027 President's Budget				
	Positions	FTE	Pay Amount	Non-Pay Amount	Amount
Pricing Change 1 - Adjustment to Fee Projection	-	-	\$26,431	\$3,459	\$29,890
Total Pricing Changes	-	-	\$26,431	\$3,459	\$29,890

Pricing Change 1 – Adjustment to Fee Projection:

Base Activity Funding: This pricing change represents an adjustment to SEVP fee projection, which totals \$186.6M.

Pricing Change Explanation: This pricing change updates fee projections for SEVP to \$216.5M. SEVP requested approval to increase its spending authority to secure necessary resources, improve internal systems and further partnerships to fulfill its mission. Specifically, these new requirements include an anticipated \$10 million increase in payroll for planned hiring, building out a new version of SEVIS estimated at \$18.5 million, and other increases tied to supporting casework led by the Counter Threat Leader Development Unit within the National Security Division, which is the primary lead for SEVP-related investigations of student, school, and employer fraud..

Explanation of Pay Cost Drivers

Non-LEOs: Non-Law Enforcement Officers (LEOs) support SEVP in collecting, maintaining, and providing reliable information on foreign students. Over one million international students and their dependents already hold temporary visas and SEVP Non-LEOs play an integral role in managing this program element.

Criminal Investigators: SEVP utilizes the SEVP Analysis and Operations Center (SAOC) Data Team to protect national security by collecting, maintaining, and providing reliable information on foreign students, exchange visitors, and the schools and programs that host them. LEOs also enforce compliance with school certification programs and work with HSI Special Agents assigned to the Counter Threat Lead Development Unit (CTLD) to reduce the risk of benefit fraud and the exploitation of the student visa system. CTLD uses risk-based targeting of enforcement leads related to school fraud and exploitation of our immigration system by students. HSI Special Agents work to identify and develop leads and actionable criminal/administrative investigations which have a nexus to F, M, and J visa overstays, fraud, and counterterrorism. SEVP payroll required an upward adjustment to pay in support of filling 68 vacancies and law enforcement pay.

Total - Non-Pay Cost Drivers	\$126,041	\$126,041	\$129,500	\$3,459

Explanation of Non Pay Cost Drivers

Contract Support: SEVP contracts enable strategic development as the program expands and supports mitigating program vulnerabilities related to data entry, IT system performance, and noncitizen status monitoring.

Counter Threat Lead Development Unit (CTLD) Contracts: CTLD contracts inform management, supply manpower to perform mission critical functions, and provide technical expertise to support CTLD's mission of noncitizen enforcement. Contract-provided services include alien status and location data, lead processing, and big-data, open-source, and statistical analysis.

Government Services: This program element and funding include nine Interagency Agreements, which cover personnel supporting SEVP within DHS, the Department of State, and the General Services Administration.

Student and Exchange Visitor Information System (SEVIS) Operations and Maintenance (O&M): SEVIS O&M is identified as the core system that has many supporting parts and sub-systems. The SEVIS Adaptive Maintenance for SEVIS O&M outlines the modification of software to keep SEVIS usable after a change to its operating environment. SEVIS maintains and allows monitoring of SEVP-certified schools, exchange visitor program sponsors, and nonimmigrant students. SEVIS enables SEVP to assure proper reporting and record keeping by schools and exchange visitor programs, thereby ensuring data currency and integrity. SEVIS also provides a mechanism for student and exchange visitor status violators to be identified so that appropriate enforcement is taken (i.e., denial of admission, denial of benefits or removal from the United States).

Other Costs: Other costs include supplies, fuel, and other ancillary expenses.

Comparison of Budget Authority and Request

(Dollars in Thousands)

	FY 2025 Full-Year CR			FY 2026 Annualized CR			FY 2027 President's Budget			FY 2026 to FY 2027 Total Changes		
	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount	Pos.	FTE	Amount
Detention and Removal Office Fee	-	-	\$3,000	-	-	\$3,000	-	-	\$3,000	-	-	-
Total	-	-	\$3,000	-	-	\$3,000	-	-	\$3,000	-	-	-
Subtotal Mandatory - Fee	-	-	\$3,000	-	-	\$3,000	-	-	\$3,000	-	-	-

Fee Authority: The U.S. Attorney General may stay the removal of a noncitizen arriving at an air or seaport of entry when the noncitizen needed to testify in the prosecution of a person for a violation of a law of the United States or of any State. Section 241(c)(2)(C)(i) of the Immigration and Nationality Act provides the Attorney General the authority to release the noncitizen upon the individual's filing of a bond not less than \$1,500, and Section 241(c)(2)(C)(iii) allows the Attorney General to prescribe additional conditions.

Under these circumstances, a noncitizen may request release by applying for Stay of Removal and paying the release bond. The individual may request a stay for up to one year. Anything over one year must be renewed by filing a new application. The Application for Stay of Deportation or Removal (I-246) fee – currently \$155 per application – is collected and deposited into the Immigration Examination Fee Account (Title 8 U.S.C. § 1356(m) and (n)). Cases and application statuses – I-246, in conjunction with other relevant ICE forms – are monitored for compliance by the Enforcement and Removal Operations Field Offices at which they are filed and submitted.

Fee Uses: Fee collections cover the costs incurred by the Detention and Removal Office during a stay of deportation or removal. The collections are also used to fund some Custody Operations non-bed general expenses.

Change Mechanism: While there is no legislative requirement to adjust the fee, any fee changes must be published in the Federal Register.

Previous Changes: There are no previous changes.

Recovery Rate: Obligations in this mandatory account are historically minimal, the majority of costs are fully recovered.

Explanation of Non Pay Cost Driver

Medical Services and Detention: Costs include contracts for medical services, detention services, and costs incurred by the Detention and Removal Office. This funding further supports ICE’s detention network. Non-bed non-pay expenses such as supplies, travel, and equipment are also included.
